CRISIS EXPECTED SOON.

Pekin Likely to Be Too Cold for the Japa Within Two Weeks.

WASHINGTON, Oct. 8.—The crisis of the China-Japan war is looked for within the next ten days or two weeks, by those most interested and best informed on the contest. The legations of the two countries are expecting daily to hear that the decisive battle has been fought. This is based on the fact that the Japanese have been gradually closing in around Pekin, and the invading army is compelled by force of circumstances to strike its blow at once, or not at all. The litense cold which comes on about the middle of October makes this imperative. (By Associated Press.)

around Pekin, and the invading army is compelled by force of circumstances to strike its blow at once, or not at all. The intense cold which comes on about the middle of October makes this imperative.

The Japanese climate is very mild, even in Winter, and the Japanese troops are wholly unprepared for the rigorous climate about Pekin which is due within two weeks.

The Chinese look upon this as one of their defenses, and the Japanese fully appreciate that it compels them to concentrate their campaign for this year into the next few weeks, and, if possible, days.

On one occasion, he said. Lechner had offered his wife \$300 to go away and let him alone, but the other woman objected.

Lechner then went on the stand. He admitted the marriage in Roumania, but said that prior to leaving there they had gone before a rabbi and by mutual consent had secured a divorce. This, he claimed, was in accordance with the laws of Roumania, Judge Pryor and Lawyer Louis Steckler had a spirited tilt over the introduction of evidence regarding this. Judge Pryor demanded that the legal records of this be produced, and also that a copy of the Roumanian laws on this point be introduced. Mr. Steckler could do neither.

Lechner further denied that his wife had nineteen children by him, saying there had been only four. He said that he was not living with any woman, as charged, but that she was janitress at the house, and he was working for her. He said he did not earn more than \$10 a week. After his testimony, Mr. Steckler consented to a separation, but asked that the defendant not be compelled to pay alimony. Judge Pryor reserved decision.

Jeweller Claimed It Was Pawned by Baroness Blane. An echo of the career of Barones

Blanc was heard in the Superior Court this morning in a suit brought before Judge McAdam and a jury.

The suit was brought by Edward D. La Fietra, assignee of the jewelry firm of Charles Seale & Co. against W. R. Glover, a pawnbroker.

Early in 1893 the jeweller sold to Baroness Blanc a quantity of jewelry amounting to several thousand dollars. After she purchased the jewelry on credit it is alleged that she pawned with Glover a diamond pin valued at \$1,500. The other jewelry was subsequently returned to the jeweller.

The jury brought in a verdict in favor of the plaintiff for \$1,409.17.

The pin was sold to Baroness Blanc for \$1,800, and Mr. Glover advanced her a joan of \$800 on it.
